An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Bowser on 1/19/06.

Please amend as follows

--FIG. 20 is a block diagram showing a function configuration of an image processing unit according to an example modification;--

Response to Amendment

1. The amendment received 12/28/05 has been entered in full. Claims 1-40 have been canceled and new claims 41-49 which incorporate subject matter previously indicated as allowable are pending. The replacement drawing and corrections to the specification have also been entered in full.

Allowable Subject Matter

2. Claims 41-49 are allowed.

3. The following is an examiner's statement of reasons for allowance: In the previous office action several claims were objected to as containing allowable subject matter. As the allowable subject matter has been rewritten in independent form the claims are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
